1. Install the "GP-C80250 Series" driver (the driver must print normally)
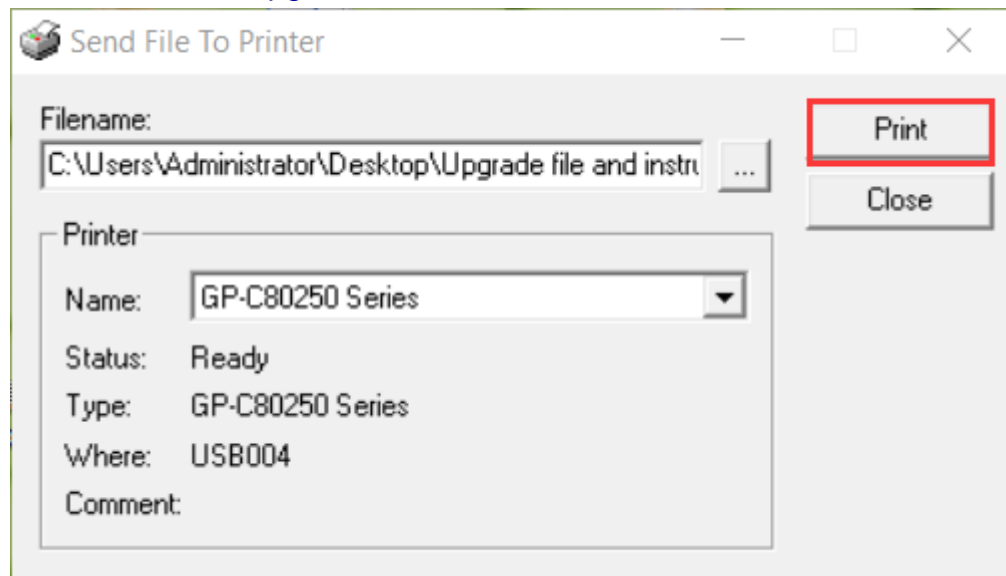

2. Open tool "PrintFile",Name select "GP-C80250 Series"

3.Select Upgrade file

4. Click "Print" to upgrade

5. The printer's 3 indicators flash alternately until the printer automatically restarts. Print the self-test page to view the upgrade results.
(If the Host Name display in self-test is not GP_C80250, you can restore the factory settings in Telnet.)
